## PURPOSE OF THIS GUIDE

The Illinois Network of Charter Schools (INCS) has created this guide to provide helpful information about educator requirements in Illinois to job seekers considering employment in charter public schools. We have done our best to provide the most updated information possible. We recommend that you confirm information provided here by visiting the Licensure section of the Illinois State Board of Education (ISBE) website (<https://www.isbe.net/Pages/Licensure.aspx>) or with ISBE staff or with charter school hiring managers.

## Before You Get Started

- You should expect it to take anywhere from 6 weeks to 4 months after you submit your license to have it reviewed.
- When completing licensure requirements, it is important to note that previously most test scores had an expiration date for validity, but now **all test scores are valid indefinitely**. This includes ACT, SAT, out-of-state test of basic skills, content-area test, the APT/edTPA, and the TAP.

## Impact of ESSA on Illinois Teacher Licensure

- According to ISBE, the Highly Qualified requirements for teachers and paraprofessionals have been phased out. As of July 1, 2017 teachers and paraprofessionals must meet only state and local licensure requirements. Under ESSA, charter school teachers must still abide by the requirements under the Charter Schools Law (105 ILCS 5/27A-10(c)). <http://www.ilga.gov/legislation/ilcs/fulltext.asp?DocName=010500050K27A-10>. This section of the Charter Schools Law states that at least 75% of charter staff holding instructional positions must hold a state certification (e.g., an educator license). Staff in instructional positions who do not hold an educator's license must meet the following five qualifications (though individual charters may require official certification for more than 75% of their instructional staff, at their discretion):
  1. A bachelor's degree from an accredited institution of higher learning;
  2. At least five (5) years of employment in an area requiring application of the individual's education;
  3. Pass the Illinois educator tests of basic skills and subject matter knowledge in their field;
  4. Demonstrate continuing evidence of professional growth (e.g., successful teaching experience, attendance at professional meetings, membership in professional organizations, additional credits earned at colleges or universities, travel specifically for educational purposes, or reading of professional literature).

### Overview of License Types

#### 1. Professional Educator License (PEL)

- a. This license is available to teachers who have completed an Illinois educator preparation program or have a teaching license from another state.
- b. A PEL is valid for five full fiscal years and renewable if professional development requirements are met.
- c. There are three categories of PEL endorsements: teaching, school support personnel, and administrative. For additional information, visit <https://www.isbe.net/Pages/Professional-Educator-License.aspx>

#### 2. Educator License with Stipulations (ELS)

- a. If you have not met all of the requirements for a professional educator license (PEL) and would like to begin teaching immediately, you may be eligible for an ELS. This is considered temporary, and is offered to candidates upon receipt of a deficiency letter or at the beginning of an alternative certification program.
- b. An ELS will automatically be exchanged for a PEL if the PEL requirements are met within the two fiscal year validity of your deficiency letter.
- c. This type of license is typically for out-of-state candidates. However, in-state candidates are eligible in the event that they do not pass their edTPA, but get the minimum cut score.

#### 3. Substitute Teaching License

- a. Anyone with a bachelor's degree or higher from a regionally accredited institution of higher education is eligible for a substitute teaching license.
- b. A substitute teaching license is valid for five years and may be renewed with payment of registration fees.
- c. Individuals who hold a lapsed professional educator license (PEL) **and** owe professional development are not eligible for this license.
- d. Individuals who hold a license indicative of a bachelor's degree (such as a professional educator license) can substitute on that license.
- e. Applicants must pay a \$50 application fee.

### In-State Licensure

Universities must submit an applicant's entitlement in the ELIS system updating the status to "Completed Program." "Completed Program" status means all requirements (tests, forms, etc.) have been collected. Once you have achieved this status, a badge appears on the home screen of your personal ELIS account. Click the badge to submit an application and fee.

Schools that have made a job offer to an individual may submit a **rush request** to expedite licensing issuance. Complete the following form, which includes a required signature from your regional superintendent or human resources official. <https://www.isbe.net/Documents/73-07-priority-rush-request.pdf>

### Out-of-State Licensure

Out-of-state applicants may be exempt from some tests and required coursework. Make sure all necessary forms are filled out and submitted when mailing in paperwork.

In the event of a deficient application due to coursework, apply for an appeal. To avoid a deficient license due to coursework, make sure **all** necessary transcripts are delivered.

Schools who have made a job offer to an individual may submit a **rush request** to expedite licensing issuance. Complete the following form, which includes a required signature from your regional superintendent or human resources official. <https://www.isbe.net/Documents/73-07-priority-rush-request.pdf>

### BEFORE YOU GET STARTED-Out-of-State Applicants

- If you completed an educator preparation program that is outside of Illinois, **you must already have a teaching license** from another state in order to qualify for a Professional Educator License or Educator License with Stipulations (ELS). If you completed an educator preparation program out of state and have yet to obtain licensure, you must become licensed in the state of your program first, and then apply for your Illinois license.
- If you notice that you do not yet meet every requirement for the PEL, that is okay. You should still apply for that license in your ELIS account. In the event that your PEL application has deficiencies, the state will go ahead and grant you a provisional license (ELS) so that you may begin teaching immediately.

- A deficiency is simply when the State says that you did not meet all of their requirements for licensure. The ELS is a temporary license that allows you to teach while you make up your deficiencies.

If you have already been hired and your license transfer is preventing you from being able to work your principal can send in a licensure rush request form. This form can only be sent if you have been hired. This form may be found here:  
<https://www.isbe.net/Documents/73-07-priority-rush-request.pdf>

### Alternative Certification

This route is intended for individuals who have previously completed a bachelor's degree in a subject other than education and have not attended a teacher preparation program. Only those individuals who have already earned a bachelor's degree in the content area they intend to teach are eligible for the alternative certification route. This requires two years in which candidates will teach full time under the mentorship of an experienced teacher. Upon successful completion of the program, a professional educator license is awarded and a Master's degree.

#### **Alternative Licensure Program Requirements**

- Hold a bachelor's degree and pass an Illinois test of basic skills and the applicable content test.
- Complete a preparation program that ensures candidates meet the Illinois Professional Teaching standards. See Appendix A for a list of current approved Illinois alternative licensure programs or search for "Alternative" programs in the ISBE Directory of Approved Programs: <https://www.isbe.net/Pages/IHE.aspx>
- 32 semester hours in an area of specialization or a major in the field as identified by the accredited institution.
- 3.0 GPA in undergrad (except for the Erikson Institute, a 2.75 GPA is required)
- A major in English, math, social sciences, or sciences
  - a. If your major does not fit into one of these categories, the state can verify on transcripts that you have completed enough coursework in these categories
- Most programs begin in the summer. It is best to apply during the fall prior to your intended first year in the classroom to ensure that you have all paperwork completed on time and can start the program during the summer.
